# CAPRA GOAT RAISING HUSBANDRY BREEDING ENTERPRISES FOOD IND. & TRADE LTD. CO.

We may introduce ourselves as an enterprise group dealing with stockbreeding in Bursa city and engineering business in Istanbul ([www.etkin.biz.tr](http://www.etkin.biz.tr)). Note that our corporation is designated as Capra Keci Yetistirciliği Hayvancılık Damızlık İşletmeleri Gıda Sanayi ve Ticaret Limited Şirketi (**Capra Goat Raising Husbandry Breeding Enterprises Food Industry and Trading Limited Corporation**) is registered with the Bursa Chamber of Commerce and Industry under registration no: 67083.

Our farm is in the process of establishment at Orhaneli county that is 33 kms. far from the Bursa greater city and it has completed 70% of its facility construction. We primarily have a target to deal with the goat breeding in milk race (Saanen) and the production of goat milk, and our land covers an area of 30.000 m<sup>2</sup>. Our facility shall have a capacity of totally 4500 animals, 1800 of which be milker when completed. Note that its road, substructure, telephone, electricity and water supply works have been completed and its all legal permissions, authorisations and operational certificates for construction works have been obtained.

# Planned Investment

- With a capacity of 900 dairy cattle sheep barn - 1 (1460 square meters)
- Parlor ( 340m<sup>2</sup> )
- Maternity ( 432m<sup>2</sup> )
- Billy goat barn ( 145m<sup>2</sup> )
- Water tank ( 32m<sup>2</sup> )
- Animal herb store ( 300m<sup>2</sup> )
- Office ( 100m<sup>2</sup> )
- Home workers ( 80m<sup>2</sup> )
- Shelter ( 21m<sup>2</sup> )
- Concentrate feed store ( 120m<sup>2</sup> )
- Young goats barn ( 1224m<sup>2</sup> )
- Kids Barn ( 912m<sup>2</sup> )
- With a capacity of 900 dairy cattle sheep barn 2 (1460 square meters)
- Construction Area (6626m<sup>2</sup>)

# Completed Investments

- With a capacity of 900 dairy cattle sheep barn - 1 (1460 square meters)
- Parlor ( 340m<sup>2</sup> )
- Maternity ( 432m<sup>2</sup> )
- Billy goat barn ( 145m<sup>2</sup> )
- Water tank ( 32m<sup>2</sup> )
- Animal herb store ( 300m<sup>2</sup> )
- Office ( 100m<sup>2</sup> )
- Home workers ( 80m<sup>2</sup> )
- Shelter ( 21m<sup>2</sup> )
- Dog shelters ( 24m<sup>2</sup> )
- Parking and truck scales
- Gateway and plug
- Camellia
- Manure pit
- Electrical transformer

# Overview

# Overview

# Overview

# Overview

# Overview

Our total construction area of 6.626 m<sup>2</sup> consists of 14 independent sections and 2.900 m<sup>2</sup> of the construction area has been completed. Our construction process is in rapid progression. Our facility has been designed in Sweden by De Laval corporation

in such a way that it could be converted into other ovine breeding (sheep, lamb etc.), in case of requirement.

Our project is tracked, supervised by our Manager of Veterinary practitioner 'ph(D)'. In addition, a 'negotiated contract of farming' has been concluded with the Ege University, Agriculture Faculty with regards to herd management, maintenance and breeding. Periodical consultancy service has been rendered by the academicians.

With a capacity of 900 dairy cattle  
sheep barn - 1 (1460 square meters )

# Camillia

# Manure pit and screw

# Manure pit and screw

# Manure pit and screw

# Electrical transformer

# Incomplete Investments

- Concentrate feed store ( 120 m<sup>2</sup> )
- Young goats barn ( 1.224 m<sup>2</sup> )
- Kids Barn ( 912 m<sup>2</sup> )
- With a capacity of 900 dairy cattle sheep barn -2 ( 1.460 m<sup>2</sup> )

# Existing machinery and equipment

- Newholland TD65 Tractor
- Tractor's bucket and trailer
- Tractor trailer ( 5 tonne )
- Lightning rod
- Feed preparation machine
- Manure scarppers
- Rotary milking system with 32
- Cooling tank ( 6000 lt )
- Feed silo ( 8m<sup>3</sup> )
- Screw the drain Fertilizer

# Newholland TD65 Tractor Tractor Trailer Tractor's bucket and trailer (5 tons)

# Lightning rod

# Feed preparation machine

# Manure scarpers

# Rotary milking system with 32

# Cooling tank ( 6.000 lt )

There is a thirtysecond rotary milking machines (American made of Gea Westfaliasurge trademark) and our animals are subjected to wholly automatic milking process and our milk is gathered at a cooling tank of Japy (of French manufacture) in 6.000 lts. volume.

# Feed silo ( 8m<sup>3</sup> )

# Sillage pool

# Machinery and equipment will be

- Scraper dairy cattle roof – From first stage
- Generator
- UPS power supply and regulator
- Billy goat barn scarper
- Milking animal feeding conveyo
